-

PROFESSIONAL EXPERIENCE

WordPress Developer | Terralogic Software Solutions Pvt. Ltd., Bengaluru | Jan 2023 – Present

- Designed, developed, and maintained custom WordPress themes and plugins, ensuring responsive, user-friendly, and optimized website designs.
- Implemented dynamic AJAX-based form functionalities and integrated them with Salesforce Lead Generation and HubSpot SMTP for automated lead capture and email handling.
- Performed server-side validation for all forms to ensure secure, accurate, and reliable data submission, while implementing security measures to prevent common web vulnerabilities.
- Integrated and consumed RESTful APIs with Bearer Token authentication, tested and debugged using Postman, ensuring secure data communication.
- Integrated third-party APIs, including Google APIs, Google Login, Facebook Login, Telegram Login, WhatsApp Login, and reCAPTCHA, and implemented custom reCAPTCHA and JWT-based authentication for secure and seamless user

- interactions.
- Managed MySQL databases, designing queries, optimizing storage, and ensuring smooth communication between front-end and back-end systems.
 - Improved website performance by optimizing code, images, and database queries, resulting in faster page load times and better user experience.
 - Conducted unit testing on website components and functionalities to ensure code quality, early bug detection, and reliable, error-free performance.
 - Deployed projects on Linux servers, configured hosting environments, and maintained version control using Git and GitHub.
 - Optimized website performance, resolved bugs, and ensured cross-browser compatibility, responsive design, and enhanced website security.

PROJECTS & HIGHLIGHTS

Delivered and deployed multiple client websites, including Hexaware, Health City, Reveal Health Tech, Jaro Education, NDRK Institute of Technology Hassan, Blazeup, Manjushree India, Cognixia (US), and PSG Group, ensuring responsive design, optimal performance, and seamless functionality.
